

DAVIDE FORE' WINS IN THE STATES

The WORLD CHAMPION, Davide Forè, won hands down the first race of the Stars of Karting, the Race of the America's, in ICA class last weekend in Oklahoma. The TONY KART colours bearer, who was welcome with great enthusiasm by the organisers, dominated the race winning both the semi-final and the final with more than 3 seconds' lead over the second, Helmut Sander, and more than 6 seconds' lead over the third, Mike Giessen.

Also the TONY KART North American drivers were authors of excellent results: in ICC Jason Bowles, of the Compcor Racing Team, was second and in the Junior class the Canadian Xavier Coupal, of Sh Karting, won the race!

Bowles, winner of the Skusa Supernationals in the ICC class last October, made an incredible race: starting from the 7th place in the grid, he was soon third and was second to cross the finishing line. A very good season debut, both for the Compcor Racing Team and for Bowles himself, who with this result has shown he is one of the best US drivers.

In the Junior class great victory of the Canadian Sh Karting Team driver Coupal, who distinguished himself for the whole weekend and was a great protagonist of the race!

The Race of the American's, excellently organised by the Stars of Karting, has been the first race of the US races' schedule which the TONY KART RACING TEAM took part in, working together with the US Tony Kart distributor, Compcor, and the Canadian distributor, Sh Karting, in order to obtain the best performance from the material.
